

2023-2025 MLP Solar Program Rebate Application Addendum Form for Partially Eligible Systems

Application Directions

Fill out this form and provide the documents below if the system has one or more arrays outside the required Azimuth of 90-270 degrees. *Exception: Reading Municipal Light Department (RMLD) allows 80-280 degrees.* Please provide :

1. Itemized installation costs for eligible panels. Include all fixed costs. Battery or battery installation costs aren't eligible.
2. Shade report showing the panel count, Azimuth, tilt/pitch, and annual solar access percentage of eligible panels only.
3. Include an overhead diagram of entire system and indicate eligible panels. Shade reports with diagrams satisfy this requirement.

The Project Owner must sign the form before uploading document to the portal application.

A. Property Owner Information

Utility Name:

(Select your utility from the drop-down menu.)

First Name: **Last Name:**

Street Address: **Unit#:**

City/Town: **State:** **Zip code:**

Email: **Phone:**

The MLP Solar program is digital only. Applications with blank email field will be returned.

Portal Unique identifier:
(electric account #)

B. Installer Information

Company Name:

Contact Person:

Email:

Phone: **Extension:**

Street address: **Unit #:**

City/town: **State:** **Zip code:**

2023-2025 MLP Solar Program Rebate Application Addendum Form for Partially Eligible Systems

C. System Information: Enter each array's info below, separated by a comma.

Example: a 19-panel system consisting of 3 arrays of 6, 8, and 5 panels should be entered as 6, 8, 5.

Total System Information

Total # of panels in system:
(Needs to match # in installation contract)

Total System Capacity (kW DC):

Total Installed Costs for Project:

System's Eligible Portion Information

Total # of **eligible** panels:
(All panels that meet the DOER rebate requirements)

Eligible Panel Capacity (kW DC):

Eligible Panel Costs:
(Required: itemized description of installation costs for eligible panels. Include all fixed costs, excluding battery.)

D. Eligible Array Information: Enter the eligible array's/arrays' information, separated by a comma.

Maintain the order of info from above.

Eligible Panel Orientation Type: **Fixed**
(fixed, single axis, dual axis)

Eligible Panel Azimuth(s) (degrees):

Eligible Panel Inclination (degrees):

Total Annual Access (%) of Eligible Panels:

Roof or Ground Mounted (choose one):

E. Additional Documents Needed

- Itemized installation costs for eligible panels. Include all fixed costs. Battery or battery installation costs aren't eligible.
- Shade report summarizing system info for eligible panels only. If report does not include system diagram, include:
- Overhead diagram of entire system, indicating eligible panels.

F. Signature

By signing below, I certify that all information is true and correct to the best of my knowledge.
